

CO-YPM-Tele-04
Portable Lighting system

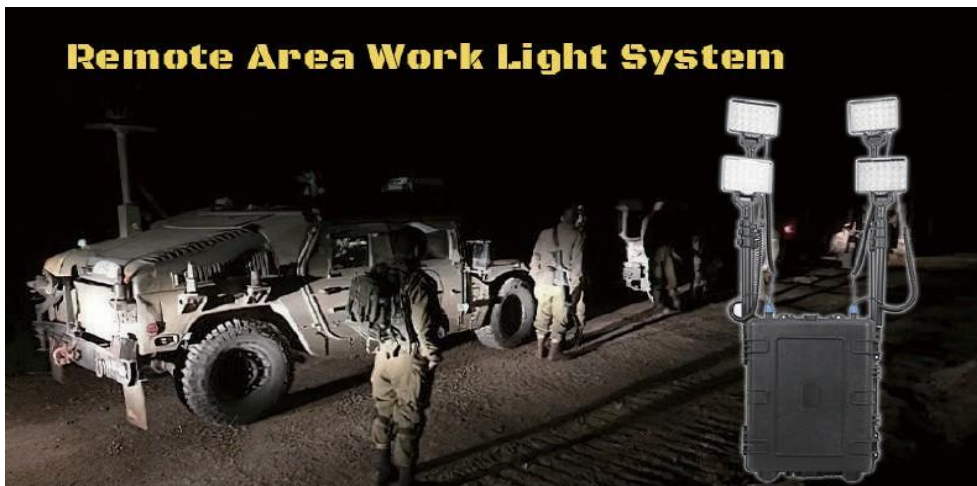

Technical Features:

- Type of Lamp: LED 96 Nos
- Rated Power: 288 Watt
- Power Source: Rechargeable Battery
- Battery Type: Lithium-ion
- 12 Volt-36 AH Rechargeable Lithium-ion Battery
- Working Time: Full mode: 8H / Medium Mode: 10H / Low: 20H
- Mounting Type: Tripod Mount
- Charging time: 7-8 hrs. Deep discharge
- Low Battery Warning: Intermittent Blinking
- Rotating Head: 90 degree
- Beam Spread: 360 Degrees
- Color: Grey Black
- IP Rating: IP 65
- Color temperature: 6000-7000k
- Height mast extend: 2 Meters
- Material Telescopic Rod: Aluminum alloy Four-pole, case; Polypropylene
- Accessories: AC Charger, DC charger, Dual USB power adapter, shoulder belt, reflective tape
- **Remote Control:** Wireless remote provided for operation of light modes (Low/Medium/ High/Flash), brightness adjustment and power ON/OFF

MODEL: CO-YPM-TELE 04 (Working Manual)

- **Rated brightness: 4000 -24000lm**
- **Charging Time: 7-8H**
- **Running Time: 20H(Low) / 10H (Mid) / 8H (High)**
- **Mass Height: 2M**
- **Battery: Rechargeable Lithium**
- **Intelligent power display**
- **Design to meet IP×5**
- **Application: Emergency, Maintenance, Police, Rescue, Fire-fighting, Mining**
